STATISTICS OF ASSESSMENT LIFE ASSOCIATIONS.

In the following tables we present the statistics of a large number of assessment associations, both life and accident, and fraternal societies, showing their transactions and financial condition for two years. These figures have been carefully compiled from official reports made to insurance departments, or from reports specially furnished to us for THE YEAR BOOK. The comparative form in which they are presented lends special importance to them:

AVERAGES.

INSURANCE IN CANADA.

WHAT IS REQUIRED OF COMPANIES DOING BUSINESS IN THE DOMINION

THE INSURANCE ACT, 1910, was passed during the session of the year 1910 of the Dominion Parliament and became law on May 4, 1910. The Consolidated Act in force up to that time was repealed, with the exception of sections 49, 51, 52 and 71, which remained in force until January 1, 1911, and were repealed on that date.

Under the Insurance Act, 1910, no company or underwriters or other person can do business in the Dominion without obtaining a license from the Minister of Finance. In order to obtain such a license every life company and every fire company must deposit with the Receiver-General the sum of fifty thousand dollars.

It is provided, however, that in case of any such company incorporated elsewhere than within Canada when its liabilities to policyholders in Canada, including the full reserve for reinsurance value of all its Canadian policies, exceed its assets in Canada, then the company will be required to make good the deficit by adding to its deposits with the Receiver-General, or by creating a special trust in the hands of two or more persons resident in Canada or in a Canadian trust company. Hereafter no trustee, except a trust company, shall be approved by the Minister.

Companies doing marine business exclusively are not subject to the act.

Companies other than life, fire or marine, in order to do business in Canada, are required to obtain a license from the Minister of Finance, and the Treasury Board must in each case decide what shall be the amount of deposit.

Every company is required to file in the Department of Insurance, within two months after the 1st day of January in each year, a sworn statement of its condition and affairs as at December 31 of the preceding year.

The policy liabilities of life insurance companies doing business in Canada, under policies issued previous to January 1, 1900, are to be valued according to the British Offices Life Tables, 1893, O. M. (5), at 4 per cent interest, until January 1, 1915; and after January 1, 1915, by the same tables, with interest at 3½ per cent. All policies issued on or after January 1, 1900, are to be valued according to the British Offices Life Tables, 1893, O. M. (5), with interest at 3½ per cent.

Toward defraying the expenses of the Department of Insurance a sum shall be annually contributed by the companies, which sum shall be assessed *pro rata* upon the gross premiums received by each during the preceding year, such sum to be paid upon the demand of the Superintendent of Insurance.

STATUTORY REQUIREMENTS

SYNOPSIS OF THE STATUTORY REQUIREMENTS OF THE SEVERAL STATES AND TERRITORIES AS THEY APPLY TO STOCK CASUALTY, SURETY, FIDELITY AND MISCELLANEOUS INSURANCE COMPANIES OF OTHER STATES

In the following pages will be found concise statements of the statutory requirements for the admission of stock casualty, surety, fidelity, and miscellaneous insurance companies other than fire and life, to do business in the respective States. In this brief form, the synopses are intended more as a hint than an actual guide, for it is not anticipated that any company on entering a State would be satisfied with anything less than the statutes themselves as their reliance as to conditions. Our summary, however, may be accepted as correct as far as it goes.

It has been our aim in preparing these synopses of the statutes to secure uniformity for all the States and to give the essential requirements in as brief a space as possible consistent with the statement of the facts. The synopsis for each State was sent to the supervising officer of such State and returned to us with his approval to date, or with such corrections as he deemed essential. We believe that the information given in this condensed form is as correct as it is possible to make it, and will be sufficient to indicate to all interested the statutory requirements of the several States and Territories.

EXPLANATORY NOTES.

Please Read Carefully.

The uniform blank for the annual reports of miscellaneous stock insurance companies adopted by the National Convention of Insurance Commissioners includes several mere bookkeeping items which do not properly enter into a cash statement. The items principally affected are Total Income and Total Expenditures, therefore the publishers have ignored certain items called for by the convention blank. The changes from the convention blank are explained below:

PREMIUM INCOME.—The blank calls for premiums written during the year instead of net cash premiums. In this publication net premiums written are given for the ten years covered.

TOTAL INCOME.—This column does not include the item "Gross increase in book value of ledger assets," which is entirely eliminated from the income account. The profit on sales and any profit and loss account are given *net*, the items on the disbursement side being deducted, or vice versa. Policy fees are omitted.

TOTAL EXPENDITURES.—This column does not include the item "Gross decrease in book value of ledger assets"; which, like the corresponding item in total income, is entirely eliminated. Loss on sales and profit and loss account (if any) are given *net*. Policy fees retained by agents are omitted.

LOSSES PAID.—The expenses of investigation and adjustment of claims are now included in losses paid.

FOREIGN COMPANIES.—In the columns headed total income and total expenditures the receipts from and remittances to the home offices are treated *net* in each case. On page A-134 a special table is given showing the gross receipts from and remittances to the home offices year by year. The differences between the items there given are included in income or disbursements, as the case may be.

Actual Underwriting Results.

The income and disbursements reported on the so-called "Cash Basis" take no account of increase or decrease in unearned premiums, losses unpaid and expenses unpaid. The underwriting exhibit in the statement blank, however, provides for the working out of "Underwriting Income Earned," "Losses Incurred" and "Expenses Incurred," the difference between the item first named and the total of the two last named, representing as nearly as is possible the *actual underwriting profit or loss*.

In another section of this book will be shown the underwriting and investment exhibits of the companies.
